Hi Michael,

I am happy to supervise you for the CSC495 project proposed below during summer 2025.

Best,
Alice

Alice Gao, Ph.D. (she/her)
Assistant Professor, Teaching Stream
TA Coordinator
Department of Computer Science
University of Toronto

Dear Professor Gao,

I hope this email finds you well. As you have kindly agreed to supervise my CSC495 project, I am writing to request a brief confirmation for departmental records.

Here is a summary of the project:

Course/Project Name:
Reinforcement Learning for Adaptive Decision-Making in Board Games

Description:
Apply Monte Carlo search methods to a currently working board game (Othello). Explore and implement reinforcement learning techniques, such as Q-Learning and Deep Q-Networks (DQN), to enhance decision-making strategies.

Please kindly reply to confirm your supervision. Thank you very much for your support!

Best regards,
Michael
